

New homes with no down payment, no mortgage insurance, and surprisingly low rates.

HomeStreet Bank is putting out the welcome mat to new home buyers with an unprecedented financing opportunity through the **Welcome Home Loan Program**.

This unique new program has been created to help our builder partners and developers sell exceptional, newly constructed single-family homes, condominiums, townhomes, and lots in a variety of price ranges and locations.

It's an offer that's truly one-of-a-kind.

But it won't last long.

HomeStreet Bank has a variety of special portfolio loan programs you won't find anywhere else. **And** you can choose a fixed or adjustable rate mortgage with a low or no down payment, all with surprisingly low interest rates and no mortgage insurance!

For more information about our special financing and to find out which homes qualify, visit our website at www.homestreet.com
